Questo prodotto è in lega beryllio-cobalto (Cu-Be) e non deve essere usato in ambienti con presenza di esplosioni o vapori infiammabili. È un prodotto a rischio di esplosione.

Les produits sont en alliage béryllium-cobalt (Cu-Be) et ne doivent pas être utilisés dans des environnements à risque d'explosion ou de vapeurs inflammables.

This specialized tool is made of beryllium-copper alloy and should not be used in explosive atmospheres.

Alpuzenca tool with the copper alloy tool surface is not suitable for use in explosive atmospheres.
